1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-8 and 11-15, drawn to a camera including a communicator, classified in class 348, subclass 207.

II. Claims 9-10, drawn to a camera including mode selection, classified in class 348, subclass 220.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of Group I and Group II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, inventions of Group I have separate utility such as a camera can process any image data in accordance with a detection of an external device. See MPEP § 806.05(d).
